The treatment is very simple: remove the dirt by shampooing at least once in ten days and destroy the dandruff germs by frequently applying a little of the real Parisian Sage, a most efficient preparation that the best druggists everywhere are now recommending as one of the quickest and safest treatments to surely stop itching acalp and falling hair, remove all dandruff and to properly nourish and invigorate the hair roots.

A Never Failing Way to Banish Ugly Hairs

No woman is immune to superflous growths, and because these are likely to appear at any time, it is advisable to always have some delatone powder handy to use when the occasion arises. A paste is made with some of the powder and water and spread upon the hairy furface; in about 2 minutes this is carefully removed and the skin washed. You will then find that your skin is carefully removed and the skin washed. You will then find that your skin is entirely free from hair or fuzz. Be sure, however, to get real delatone.—Adv.
